

Thermoforming /Splicing tape

Data sheet: January 2010

Application:

Monta Film 257 has been specially developed for splicing of thermo-formable films. The rigid PVC film (non-orientated) is coated with a special transparent adhesive.

Properties:

- High thermo-formability
- High elasticity
- Special transparent adhesive
- Moisture resistant
- Resistant to diluted acids and alkaline
- Heat resistant for sort exposure up to about +80 degrees C

Technical Data	Unit	
Base		Rigid PVC Film, Not orientates
Adhesive		Natural rubber
Breaking load	N/25mm N/CM	Minimum 60 Minimum 24
Thickness	Mm	0,070 +/- 10%
Adhesion Strength	cN/25mm N/cm	500 +/- 150 2,0 +/- 0,6
Core Diameter	00	76
Color		Red

*please note that all information is based on manufacture's data. We suggest testing the suitability of the self adhesive tape for te designed application or use.
